

It gets there before you do.

Some see a corner and nothing more. At Volkswagen, we spotted an opportunity to get around that corner before you do. With the redesigned CC and its low-speed corner-illuminating headlights, you turn the wheel and an ingeniously designed light guides the way. It's a simple solution that may lead to some complicated conversations. And it's just one of the many features that go into the 2013 Volkswagen CC, redefining quality, inside and out. **That's the Power of German Engineering.**

The coral reefs where we dive need help. Overfishing, careless tourism and climate change are putting reefs and people's livelihoods at risk. From the Coral Triangle to the coastlines of Africa and Australia's Great Barrier Reef, WWF is promoting responsible tourism and pushing for protected areas and responsible fishing.
